Quantum Symmetries

,J 30, 2017

Tea a 3:30 - Pa 355, Ma L e
Tea a 4:00 - Pa 338

A :

Like Hopf algebras? You will after this talk! The aim of this lecture is to motivate and discuss “quantum symmetries” of quantum algebras (i.e. Hopf co/actions on noncommutative algebras). All basic terms will be defined, examples will be provided, along with a brief survey of recent results.
